WATCH EXPLORER
Max Bill Quartz

Instructions

1. Before printing, ensure that your printer is set up to print at 100%. Do not select "Scale-to-Fit" or "Fit-to-Page".

2. After printing, measure the scale below with a ruler, and ensure that it is exactly one inch wide. If the measurement is off, double-check your printer settings and try again.

3. Cut out your watch with scissors and try it on! You can cut the watch band to size, and use tape to secure it.
